1. An extension of time under 37 CFR 1.136(a) is required in order to conduct a telephone interview which results in this application being in condition for allowance. During the telephone interview conducted on 8/11/04, Michael Diener requested an extension of time for one MONTH(S) and authorized the Director to charge Deposit Account No. 08-0219 the required fee of \$60.00 for this extension. The content of the interview which resulted in the application being considered allowable is set forth below.

2. The following is an examiner's statement of reasons for allowance:

In the telephone interview conducted on 8/11/04, applicant argued that the combination of Cataldo and either Levinson et al or LaWhite et al would --at most--suggest a wrist-worn communication device (e.g. a "bracelet" which is in a wristwatch-type configuration) wherein communication is triggered by squeezing together portions of the device housing which are on the same side of the wrist (e.g., two or more buttons immediately adjacent to a watch face-type display area) rather than a portion(s) at least partially encircling the wrist, whereby this combination of references would fail to teach or suggest the subject matter recited in claim 18, i.e. that in response to "a squeezed contraction to the bracelet", the "bracelet" is caused to "contract around and squeeze the wearer of the bracelet" in addition to causing a transmitter to transmit "a signal indicative of the contraction". Arguments were considered persuasive and the rejection of claim 18 is withdrawn, placing application in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
